## SlideRails

Heavy-duty SlideRails provide a low-friction surface ideal for roller combiner and accumulation applications. High performing acetal balls are low maintainence and have a long life. SlideRail channels are made from 10-gauge stainless and galvanized steel. The 304 stainless steel pins in each SlideRail provide superior service in harsh environments, and the pin rails are glass-filled nylon. Two-inch key slots are designed for $3 / 8$ " carriage bolts and are 12 " on center.
